**TEXAS STATE OBJECTIVES AND GOALS**  
**ASSURANCE OF SUPPORT OF THE STATE OF TEXAS' MISSION STATEMENT, OBJECTIVES, AND GOALS FOR THE PUBLIC**  
**EDUCATION SYSTEM OF TEXAS**

**This Campus Improvement Plan has been developed in support of the State of Texas' mission statement, objectives, and goals for the public education system of Texas as they are reflected in the Texas Education Code 4.002. Public Education Academic Goals.**

**Texas Education Code 4.001. Public Education Mission and Objectives**

- (a) The mission of the public education system of this state is to ensure that all Texas children have access to a quality education that enables them to achieve their potential and fully participate now and in the future in the social, economic, and educational opportunities of our state and nation. That mission is on the conviction that a successful public education system is directly related to a strong, dedicated, and supportive family and that the parental involvement in the school is essential for the maximum educational achievement of a child.
- (b) The objectives of public education are:
  - OBJECTIVE 1: Parents will be full partners with educators in the education of their children.
  - OBJECTIVE 2: Students will be encouraged and challenged to meet their full educational potential.
  - OBJECTIVE 3: Through enhanced dropout prevention efforts, all students will remain in school until they obtain a high school diploma.
  - OBJECTIVE 4: A well-balanced and appropriate curriculum will be provided to all students.
  - OBJECTIVE 5: Qualified and highly effective personnel will be recruited, developed, and retained.
  - OBJECTIVE 6: The state's students will demonstrate exemplary performance in comparison to national and international standards.
  - OBJECTIVE 7: School Districts will maintain a safe and disciplined environment conducive to student learning.
  - OBJECTIVE 8: Educators will keep abreast of the development of creative and innovative techniques in instruction and administration using those techniques as appropriate to improve student learning.
  - OBJECTIVE 9: Technology will be implemented and used to increase the effectiveness of student learning, instructional management, staff development, and administration.

**Texas Education Code 4.002. Public Education Academic goals**

To serve as a foundation for a well-balanced and appropriate education:

- Goal 1: The students in the public education system will demonstrate exemplary performance in reading and writing of the English Language.
- Goal 2: The students in the public education system will demonstrate exemplary performance in the understanding of mathematics.
- Goal 3: The students in the public education system will demonstrate exemplary performance in the understanding of science.
- Goal 4: The students in the public education system will demonstrate exemplary performance in the understanding of social studies.

# Stockdale Elementary School

*A Title I, Part A Schoolwide Campus*

*Serving Grades EE-5*

*Campus Improvement Plan*

*State Compensatory Education Programs*

*School Year 2017-2018*

## State Compensatory Education Information for Stakeholders

The State Compensatory Education (SCE) Program at Stockdale Elementary School supplements the regular education program by providing intensive, accelerated instruction to help improve achievement for students identified as at-risk. The state's SCE mandate requires that Texas school districts provide additional, accelerated instruction to students who meet at least one of the statutory eligibility criteria that identify them as being at risk of dropping out of school. The program is intended to remove any disparity between students identified as "at-risk" and all other students. The campus conducts an annual needs assessment in order to ensure the proper development of the programs' scope of services. By analyzing the results of the needs assessment, the campus ensures that SCE programs can be best integrated into the regular curriculum in order to increase the academic success of students at risk of dropping out of school.

In order to be eligible for SCE funding, this campus enrollment currently includes students who meet at least one state criterion for students at risk of dropping out of school. The SCE-funded services that are provided to these students are described in the Programs/Services section of this plan.

In 2013, House Bill 5 revised to five the number of State of Texas Assessments of Academic Readiness (STAAR) end-of-course exams required for high school students to graduate. Any student who was unsuccessful on a STAAR assessment that is no longer required have been removed from the list of at-risk students provided the student does not meet any additional state at-risk criteria.

## Community and Campus Profile

An annual needs assessment is conducted by Stockdale Elementary School that includes the principal and the site-based decision-making committee comprised of teachers, parents, community members, and business representatives. The needs assessment is conducted to identify the strengths and weaknesses of existing programs, practices, procedures, and activities, and to ensure that the use of resources is carefully planned, supplemental and cost effective. Data collected is disaggregated by all student groups served by

the campus, including categories of ethnicity, socioeconomic status, sex, and populations served by special programs, including students in special education programs. The needs assessment determines the measurable district performance objectives for all appropriate student achievement indicators for all student populations.

Based on the 2016 TAPR, Stockdale Elementary School had a student population of 395 students with the following ethnic characteristics: Hispanic students comprise 48.1 percent of the total student populations, and 50.9 percent are white. The socio-economic characteristics are: 57.7 percent economically disadvantaged; 43.3 percent non-educationally disadvantaged; 5.6 percent English language learners (ELL); 42.3 percent at-risk; and the campus has 15.1 percent mobility.

### Funding Information for Stakeholders

SCE funds are used to create a compensatory, intensive and accelerated instruction program at Stockdale Elementary School. SCE funds may also be used to fund a disciplinary alternative education program, to pay the costs associated with placing students in a juvenile justice alternative education program (but not for base level services), and to support a Title I, Part A Schoolwide program at a campus at which at least 40 percent of the students are educationally disadvantaged. The Texas Education Code, Sec. 28.0211(a-1), also requires districts to provide remediation to any student in grades 3-8 who fails a STAAR assessment. Students who pass a course but fail the assessment for that course may require additional instruction in that course even after they are no longer enrolled. Delivering accelerated instruction to students in these instances presents an additional funding challenge. The Texas Education Agency has ruled that funding to meet this state-mandated requirement may come from a campus's SCE allotment. The SCE allotment at Stockdale Elementary School is supplementary to the regular education program and supports such activities as program and student evaluation, instructional materials and equipment and other supplies required for quality accelerated instruction, supplemental staff expenses, salary for teachers of at-risk students, smaller class size, and individualized instruction (e.g., tutorials). This campus also uses its SCE allocation to fully support the intent and purpose outlined in the Texas Education Code, Sec. 29.081(a). SCE funds are always allocated to this campus for uses that are allowable under statute and guidance. Stockdale Elementary School complies with this mandate as shown in the attached detailed budget.

## Title I, Part A Schoolwide Program (TEC 42.152(c))

In accordance with TEC 42.152(c), this campus uses SCE funds to support its Title I, Part A Schoolwide Program. SCE is a state-mandated program and though state law provides flexibility with the use of SCE funds on Title I, Part A campuses with an enrollment where at least 40 percent of the students are educationally disadvantaged, SCE funds are used only to support the Title I, Part A educational program, are part of the campus budget, can be tracked back to the SCE fund code, and follow all generally accepted accounting principles. Under this flexibility, SCE funds at this campus are only used to incorporate instructional strategies that are scientifically-based and are effective in teaching low-achieving students.

## State Criteria

A student at Stockdale Elementary School is considered at risk of dropping out of school if he or she:

- 1) is in prekindergarten, kindergarten or grade 1, 2, or 3 and did not perform satisfactorily on a readiness test or assessment instrument administered during the current school year;
- 2) is in grade 7, 8, 9, 10, 11, or 12 and did not maintain an average equivalent to 70 on a scale of 100 in two or more subjects in the foundation curriculum during a semester in the preceding or current school year or is not maintaining such an average in two or more subjects in the foundation curriculum in the current semester;
- 3) was not advanced from one grade level to the next for one or more school years;^\*
- 4) did not perform satisfactorily on an assessment instrument administered to the student under Subchapter B, Chapter 39, and who has not in the previous or current school year subsequently performed on that instrument or another appropriate instrument at a level equal to at least 110 percent of the level of satisfactory performance on that instrument;
- 5) is pregnant or is a parent;
- 6) has been placed in an alternative education program in accordance with Section 37.006 during the preceding or current school year;

- 7) has been expelled in accordance with Section 37.007 during the preceding or current school year;
- 8) is currently on parole, probation, deferred prosecution, or other conditional release;
- 9) was previously reported through the Public Education Information Management System (PEIMS) to have dropped out of school;^
- 10) is a student of limited English proficiency, as defined by Section 29.052;
- 11) is in the custody or care of the Department of Protective and Regulatory Services or has, during the current school year, been referred to the department by a school official, officer of the juvenile court, or law enforcement official;
- 12) is homeless, as defined by 42 U.S.C. Section 11302, and its subsequent amendments; or
- 13) resided in the preceding school year or resides in the current school year in a residential placement facility in the district, including a detention facility, substance abuse treatment facility, emergency shelter, psychiatric hospital, halfway house, or foster group home.

---

^Students identified by criterion #3 and/or #9 remain at risk of dropping out of school for the remainder of their public K-12 education.

\*Excludes students who did not advance from prekindergarten or kindergarten to the next grade level only as a result of the request of the parents.

---

Identification of students for SCE services takes place as needed during the school year to identify those students who become eligible for services after the start of the year as well as to exit students from the SCE Program when circumstances allow. Students with disabilities are considered in an at-risk situation only if the student meets at least one of the state criteria and not due to the disability. This campus does not use local criteria to identify students for SCE services.

### STAAR Performance, Spring 2016-2017

The State of Texas Assessments of Academic Readiness (STAAR) program was implemented in spring 2012. The annual assessments for Stockdale Elementary School include reading and mathematics in grades 3–5 and writing in grade 4. The TEC §29.081 requires that districts evaluate and document the effectiveness of the accelerated instruction in reducing any disparity in performance on assessment instruments administered under Subchapter B, Chapter 39 (STAAR) for at-risk students as compared with all other district

students. Stockdale Elementary School complies with this mandate in this section on STAAR performance and in the Evaluation section on page 15. The STAAR reporting was modified for the Spring 2017 administration making it impracticable to compare the latest results with earlier STAAR administrations. The following tables show all four new performance labels. **Masters Grade Level** (Passing) indicates that students are expected to succeed in the next grade with little or no academic intervention. **Meets Grade Level** (Passing) indicates that students will have a high likelihood of success in the next grade but may still need some short-term, targeted academic intervention. **Approaches Grade Level** (Passing) identifies students who are likely to succeed in the next grade with targeted academic intervention. **Does Not Meet Grade Level** identifies students who are unlikely to succeed in the next grade or course without significant, ongoing academic intervention.

## Other Programs That Support SCE-Funded Activities

Federal and state government agencies provide an abundance of program funding and the most efficient use of this funding is through coordination of efforts to ensure that duplication is kept to a minimum and activities are shared among the program beneficiaries—students in at-risk situations.

### *Federally-Funded Programs*

**Title I, Part A**—This funding pays for resources to assist the campus’s students from low-income families and to improve education quality and help ensure all children meet the state’s student performance standards. Title I, Part A programs use effective methods and instructional strategies that are grounded in scientific research.

**Title II, Part A**—This federal funding targets the improvement of student achievement by elevating teacher and principal quality through recruitment, hiring, and retention strategies and to increase the number of highly qualified teachers in the classroom and highly qualified principals and assistant principals in schools. Scientifically-based professional development interventions conducted by the district for campus personnel result in improved student achievement and a well-trained staff.

**Individuals with Disabilities Education Act**—IDEA is the collection of federal regulations for special education that ensures a free and appropriate public education (FAPE) for students with disabilities that attend public schools. IDEA requires that each public school provide services to eligible special education students in the least restrictive environment (LRE) and in accordance with each student’s individualized education program (IEP).

**Career and Technical Education (CTE)**—Career and technical education programs offer a coordinated, balanced sequence of courses that provide students with coherent and rigorous content related to a variety of career paths. CTE content is aligned with challenging academic standards and the current, relevant technical knowledge and skills needed to prepare for further education and careers in current or emerging professions.

### *State-Funded Programs*

**Career & Technical Education**—School districts are eligible to receive weighted state funding for eligible full-time equivalent (FTE) students in approved Career and Technology Education (CTE) programs. In addition to this weighted funding, school districts are also eligible to receive \$50 for each FTE student enrolled in either two or more advanced CTE courses for three or more credits, or in an advanced CTE course as part of a tech-prep program. These two state funding elements determine a district's total CTE allotment.

**Gifted & Talented (G/T)**—A gifted/talented student is a child or youth who performs at, or shows the potential for performing at, a remarkably high level of accomplishment when compared to others of the same age, experience, or environment. They also exhibit high performance capability in an intellectual, creative, or artistic area. They possess an unusual capacity for leadership and excel in a specific academic field. The state's goal for G/T students is to ensure that those students who participate in G/T services demonstrate skills in self-directed learning, thinking, research, and communication.

**Bilingual**—Since large numbers of students in Texas come from environments in which the primary language is other than English, Bilingual education and special language programs are necessary to meet the needs of these students and facilitate their integration into the regular school curriculum. The Bilingual programs provide for bilingual education and special language programs through the use of these supplemental state funds that help defray the extra costs of the programs.

**Special Education**—This campus provides special education services to identified students through a variety of placement options. Itinerant teachers serve students that require very few changes in regular classroom instruction; special education staff team with classroom teachers providing integrated services in addition to pull-out instruction. In addition, self-contained staff provide integrated classroom services for students with moderate and severe needs.

## 2016-2017 State Compensatory Education Program Evaluation

As required by TEC, Section 29.081(c), Stockdale Elementary School evaluates the effectiveness of its state compensatory education program, the results of which are included in this campus improvement plan. The evaluation allows the campus to focus resources on the strategies and goals that will most likely impact the achievement of students at risk of dropping out of school.

The analysis of the SCE program is aimed at revealing any disparity between the performance on assessment instruments between students at risk of dropping out of school and all other district students. It also uncovers differences in the rates of high school completion between students at risk of dropping out of school and all other district students.

State Compensatory Education resources must be redirected when evaluations indicate that programs and/or services are unsuccessful in producing desired results for students at risk of dropping out of school. Stockdale Elementary School gauges the effectiveness of its designated SCE program and includes the results of such evaluation in this campus improvement plan. The TEC does not specify the minimum standard or design for an evaluative process; however, Stockdale Elementary School chooses to use a combination of two types of evaluations: Continuous Improvement and Performance Data. The continuous improvement is evaluated through the formative processes described in the Programs and Strategies section above. Evaluation of performance data is accomplished through data analysis as part of the summative evaluation process.

Using data-informed decisions to drive instruction, improve student and school performance, and close achievement gaps is a primary goal of the SCE program. As part of the SCE evaluation, the campus staff integrates and adapts data analysis to provide meaningful information that helps teachers and administrators adjust to their individual students' needs. Deep analysis of the performance data allows the campus staff to seek patterns and opportunities for student and school growth as well as to make informed judgments about teacher effectiveness, teacher evaluation and professional development needs that target strategies for assisting students identified as being at risk of failing or dropping out of school.

## SCE Budget, 2017-2018

The district business office prepares revenue projections for all funds based on state funding formulas and assigned property values, estimates of local tax revenue, enrollment projections, and other factors. The business office then coordinates the budget request process and provides approved allocations to this campus. Stockdale Elementary School is responsible for the efficient and effective administration of allocated SCE funds through the application of sound management practices and assumes responsibility for administering these funds in a manner consistent with underlying agreements, program objectives, and the terms and conditions of the SCE budget requirements set down in Module 9 of the FASRG. The accounting practices of the district that are implemented by this campus are consistent with cost principles, and provide for adequate documentation to support costs charged to the SCE budget. In determining whether certain positions, programs, strategies or activities may be funded with SCE dollars, Stockdale Elementary School bases budget determinations on the purpose of the SCE program being to improve student performance through direct instructional services to students at risk of dropping out of school.

Stockdale Elementary School does not use SCE funds to provide program activities, program personnel, or program materials that are required by federal law, state law or State Board of Education rule. The campus uses SCE funds only to provide support programs and/or services that supplement the regular education program so that students at risk of dropping out of school can succeed in school. SCE resources are redirected when evaluations indicate that programs and/or services are unsuccessful in producing desired results for students at risk of dropping out of school. All expenditures are reasonable and necessary to achieve the state goal of the SCE program: to supplement the campus's regular education program with compensatory, intensive, and/or accelerated instruction.

In accordance with TEC, Sec. 29.081(b), Stockdale Elementary School provides accelerated instruction for students who are enrolled and are at risk of dropping out of school. This instruction is in the applicable subject area and occurs before or after school or outside normal school operations as deemed appropriate.
